Ash River

Mine Centre

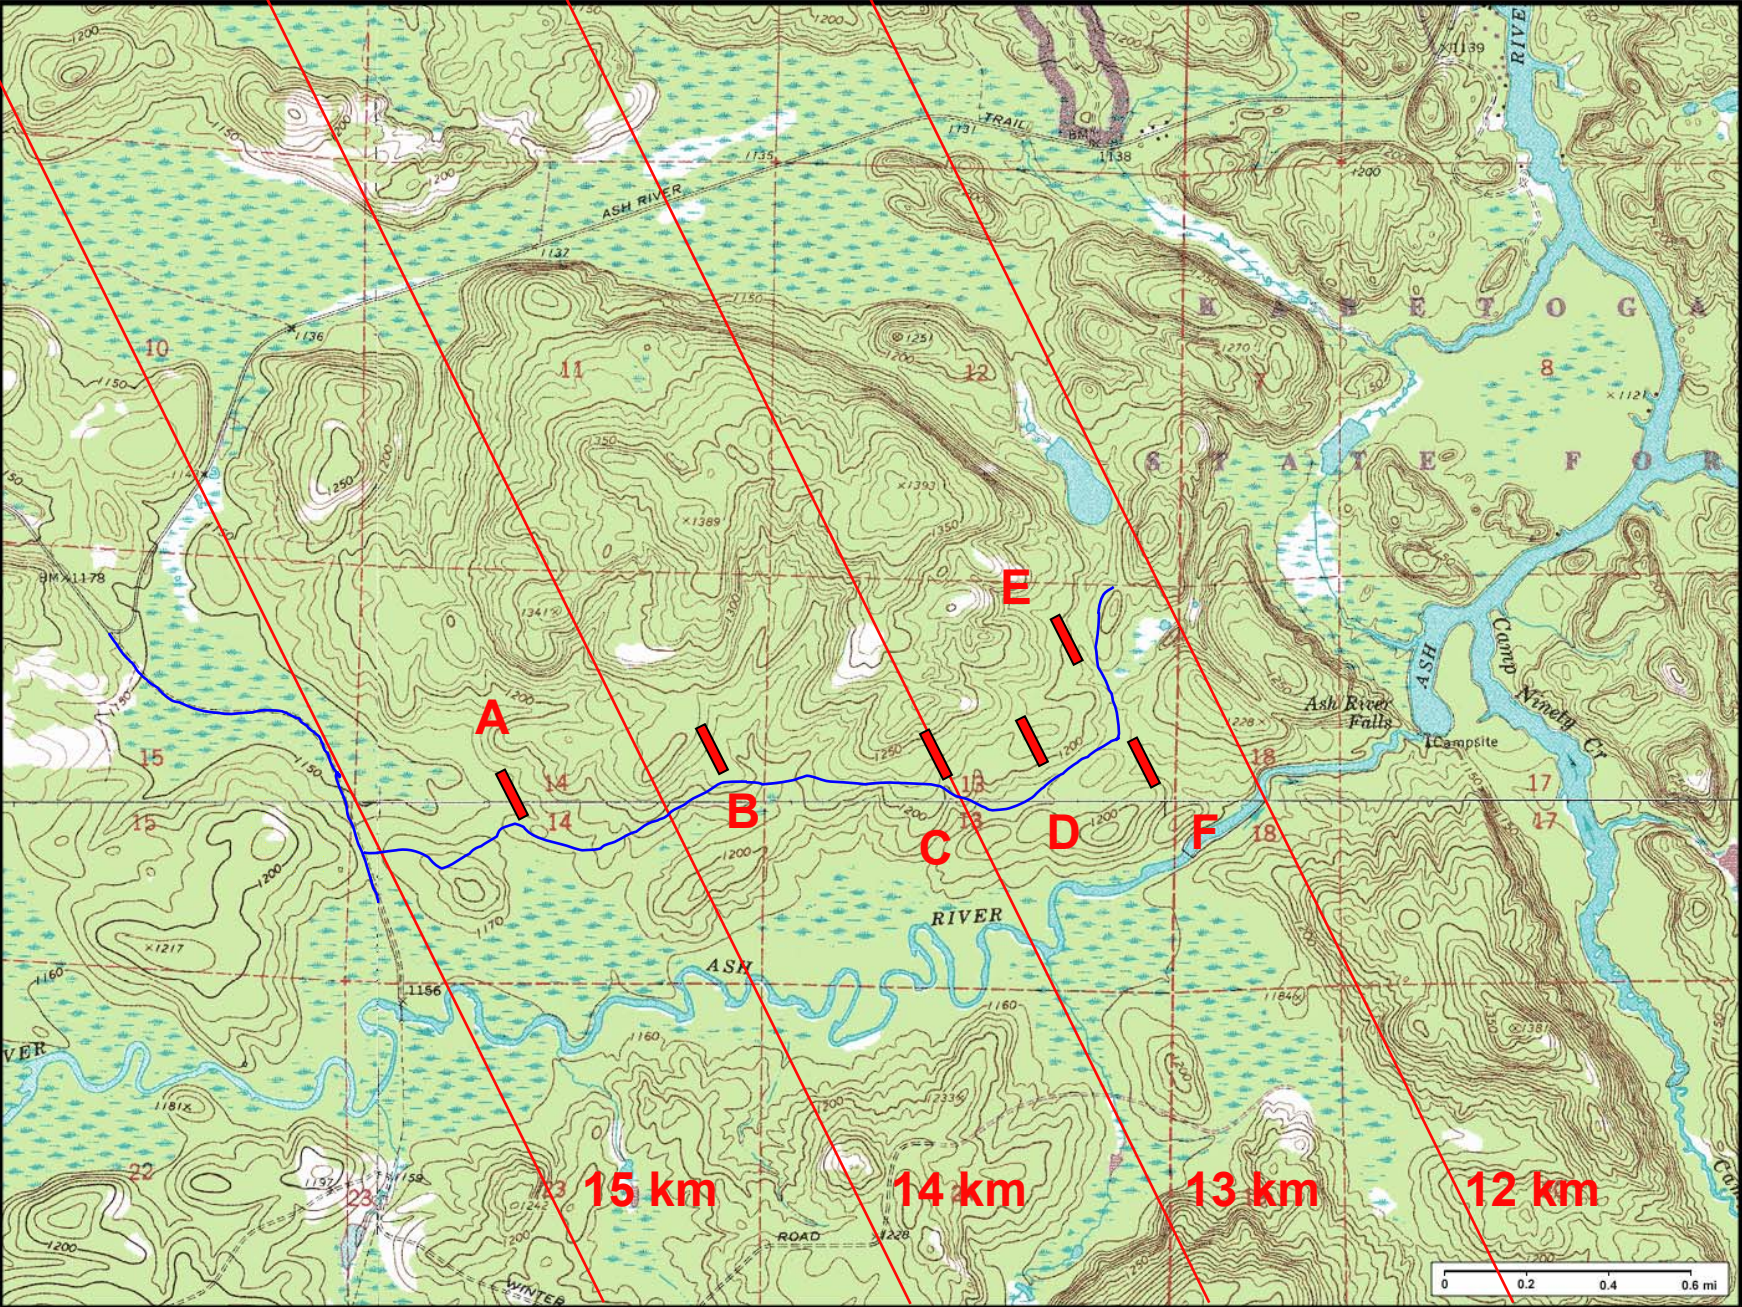

Kjostad Lake

Focus on 3 Sites

- Ash River Trail is furthest road from Fermilab that is still in the United States
- Ash River Trail sites are ~811 km from Fermilab and range from 11 to 15 km off-axis
- Mine Centre is ~845 km from Fermilab
- Kjostad Lake is ~775 km from Fermilab

Next Steps

- Formal request to DNR for land acquisition and road easement
- Formal request to Boise Cascade for road easement
- Begin environmental review process with goal of achieving “Finding of No Significant Impact (FONSI)”
